

## Power Tools Catalogs

Catalogs contain product collections that consist of a combination of digital assets and content. The catalogs are directly linked to our product information management system (PIM) so as content is updated, this will automatically flow through to the catalog. Check back for more assets and content being added continuously.

### Log in credentials:

**Username:** your email address

**Password:** same as username

**\*Please note:** username and password are case sensitive, use all lowercase.

### Landing Page:

The screenshot shows the Ingersoll Rand Power Tools & Lifting (en-us) landing page. Key features and annotations include:

- IR Logo:** Annotated with "Brings you back to landing page".
- Search Bar:** "Search by IR part # or keyword" with a search icon and a plus sign. An annotation says "Expand the [\*] for a bulk filter option to input a list of multiple product ID's".
- Navigation:** "Logout", "View (2) Selected", and "Export Catalog" buttons.
- Filters:** "Category" filter set to "Pneumatic Tools" (annotated with "Click to drill-in and filter by category"). "PRODUCT CATEGORY" filter set to "Pneumatic Tools (263)". "ASSET COLLECTION" filter set to "Air Motors (1)".
- Product Grid:** Displays products like 03F-SFTWL-6, 03H-PAD-HL, 105-1LB, 105-4T, 105-D2, 105-D3, and 105-LBK1. An annotation points to the "View (2) Selected" button: "Select multiple products below then export all content on product page".
- Product Page Link:** An annotation points to the product image for 105-D2: "Brings you to product page for additional content and list of digital assets".
- Footer:** "POWERED BY SALSIFY".

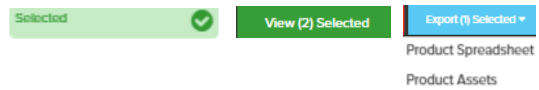

### Product Page

All digital assets will display down on the left hand side of the page and product content will display on the right pane. All product information is available for export or download.

**Digital Assets:**

- It's assumed that all images are stored in the catalog are high resolution images unless the title states low resolution. There is an option to resize an image using the export assets option.
- If there are multiple images in an asset category, a carousel at the bottom of each image will be displayed.
- To download a single image, click the download button under the image you would like.
  - \*360 spin assets can only be downloaded via the product spreadsheet or asset export option.**
  - \*Video assets are stored as URL links in the catalog and can only be downloaded via the spreadsheet export option.**

- To download **ALL** images, click then select

There are two options for exports.

1. Product Spreadsheet: Images are sent via a spreadsheet with a link to the URL. Content will also be included in this option.
2. Product Assets: All assets are sent to your email with a direct link to images.

All images are stored as high-resolution images unless *low resolution* specified in the title. There is an option to change the pixels when using the export assets option.

Export Data

Asset exports run in the background so you don't have to wait. Enter your email address, and we'll let you know when it is ready!

Resize Images: Keep Original Size | 
 Maximum Dimension: 500 px | 
 Pad to Square
